Ms Paula Elofson Gardine
Secretary
Rocky Flats Cleanup Commission
1738 Wynkoop Suite 302
Denver CO 80202

Dear Paula

Ms Beth Brainard the U S Department of Energy Public Affairs Officer for Rocky Flats forwarded your letter of June 26 1990 to me for response Enclosed as per your request is a copy of the Final Phase II (Alluvial) RFI/RIFS Work Plan for Operable Unit No 2 (903 Pad Mound and East Trenches Areas) April 12 1990

Also in your letter you expressed concern regarding seepage of radionuclides from the 903 Pad and urged a decision on treatability studies According to the Environmental Restoration staff actions established in the 903 Pad interim action plan will determine the percentage of radionuclides in surface water seeps that are attached to particles and the percentage that are either colloidal size or are truly soluble The plan also includes the development and testing of treatment technologies for the removal of radionuclides and organic contaminants

Please let me know if you need more information or have additional questions

Very truly yours
